

Codelli klub Ljubljana announces its

27. SLOVENIA CLASSIC MARATHON 2018

Taking place on Saturday, September 8th 2018.

This prestige event is a Regularity Competition counting for the **SVS Championship**, the **Open Championship of Slovenia**, the **Alpe Adria Classic Challenge** and the **Regularity Circuit Racing** championship.

PROGRAMME

As in 2017, SCM will start around 7.00 am with a prologue. Again, due to the positive response of the participants in the year 2017, a star drive will bring the teams to the start of the main stage with the aim of equalizing the conditions for competitors coming from different parts of Slovenia. Start of the main stage will take place in the Avtocenter Špan located in Brezovica near Ljubljana at 10.00 am.

The path of the main stage will lead us towards Dolenjska along the valley of the Krka River towards the GAJ race track. Based on the experience from SCM 2017,

Interesting places on the Rally route

Otočec Castle

The picturesque castle Otočec stands on an island in the Krka river. Today there is a hotel within the castle itself. Also in the area is a championship golf course, voted the best in Slovenia.

Žužemberk

Žužemberk is the center of the Suha Krajina with a mighty castle in the core of the old place that rises above the Krka River.

<http://www.zuzemberk.si/>

the main stage will be guided by two alternative routes.

One route will be shorter and less demanding regarding orientation for motorcycles and older vehicles, while the other, intended for younger cars, will be more demanding. There will be an intermediate stop for lunch and sightseeing. We want to attract as many older vehicles as possible, so they will be entitled to special benefits.

After the last year's positive response, participants will again finish the main stage on the GAJ (former Mobikrog) race track, where participants will be tested in the skill of regularity circuit racing.

On the way and finish we will carry out some accuracy, time and skill tests, but of course we will also have to find pass controls. According to the experiences from SCM 2017, special attention will be paid to determining the average speed so that it will be easy to ride and provide time for stops along the points of interest on the road to all participants regardless of the age and performance of the vehicle. At 17.30 on the race track, we will announce the results, which will be followed by a late lunch with socializing.

PARTICIPANTS

The organizer can accept up to 60 crews. Priority is given to competitors for the Championships of the SVS and AACC.

Only historical vehicles until 1988 are allowed to participate in the event without exception.

All participating vehicles must be registered and approved for regular road traffic and must comply with the Slovenian road regulations and road safety regulations, including compulsory insurance, without exception. The approval of the vehicle for participation (technical inspection) is within the competence of the organizer and is carried out at the time of registration for the event.

Interesting places on the Rally route

Krka River

On our way we will follow close to the Krka River flow, from the source and practically to the estuary. The Krka is a kind of trademark of Dolenjska, <http://www.slapovislovenije.info/krka.htm>

Kostanjevica na Krki – city on the island

This enchanting little place is the smallest Slovenian city, boasting city rights since the 13th century, though today it is mainly related to the culture.

IMPORTANT DATES

- 1. 4. 2018 - Announcement of the final program, rules and price list of the competition and start of the registration for participants
- 1. 8. 2018 - End of special discount for early registration
- 1. 9. 2018 - End of registration
- 4. 9. 2018 - Sending out of participant materials for prologue
- 8. 9. 2018 - 27. Slovenia Classic Marathon 2018

DRIVING CONDITIONS

The event takes place in regular road traffic therefore all participants are obliged to strictly observe all Slovenian and international laws and regulations related to road traffic and road safety, while at the same time they take full responsibility for their actions and possible damage.

In order to prevent any hindrance of regular traffic, participants are required to immediately stretch out the accumulated queue, if more than 3 vehicles are in it. This will allow other vehicles in regular traffic a simple overtaking.

Participants attend the event at their own risk. They carry solely their own civil and criminal liability for any damage caused by themselves or by the vehicle they use. By signing and submitting the application, the driver, co-driver and passengers shall waive any claims for all kinds of damages arising in connection with the event, namely the organizer, the authorities and other persons associated with the organization of the event.

.....

Based on the experience from previous years, we will do our best to make SCM 2018 even better. Therefore, we invite you to a pleasant gathering with the right amount of competition.

KINDLY INVITED!

Organizing Committee SCM 2018.
